Name: Iqra Mushtaq **Roll no.:** SU92-BSCSM-F24-107

Subject: REST API Development **Class:** BSCS-5B

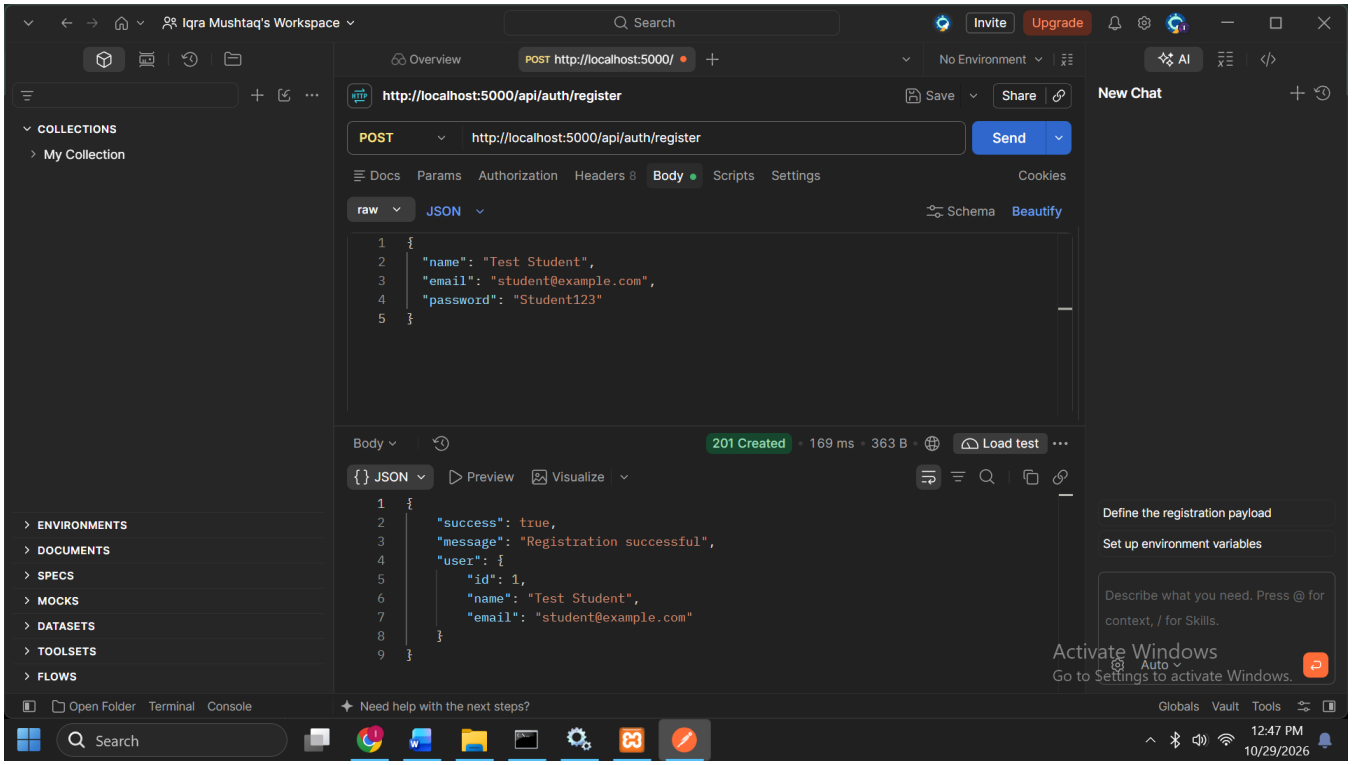

Assignment : 1

Develop a complete REST API project using Express.js and Modular MVC Architecture, including Authentication, Category CRUD, and Course CRUD functionalities.

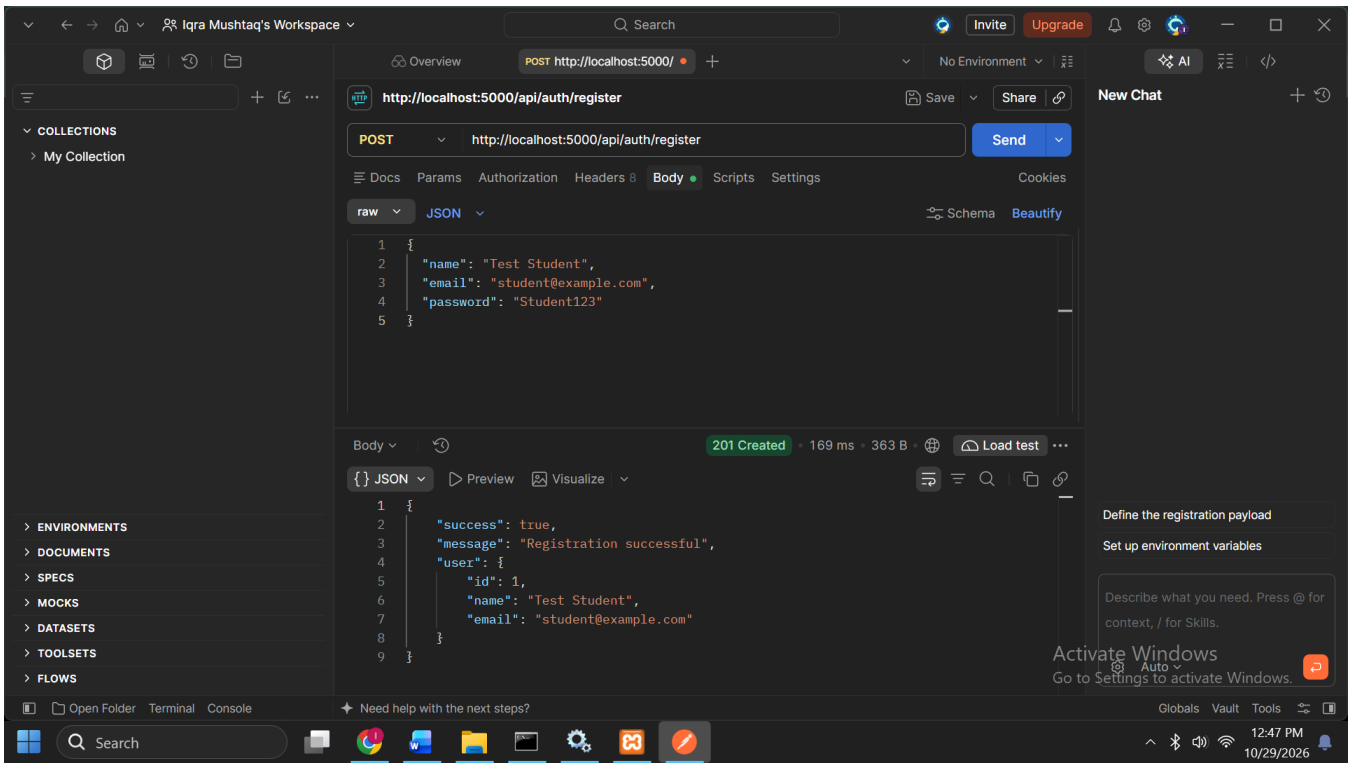

Required Modules

1. Authentication System: /api/auth
2. Category Module CRUD: /api/categories
3. Course Module CRUD: /api/courses

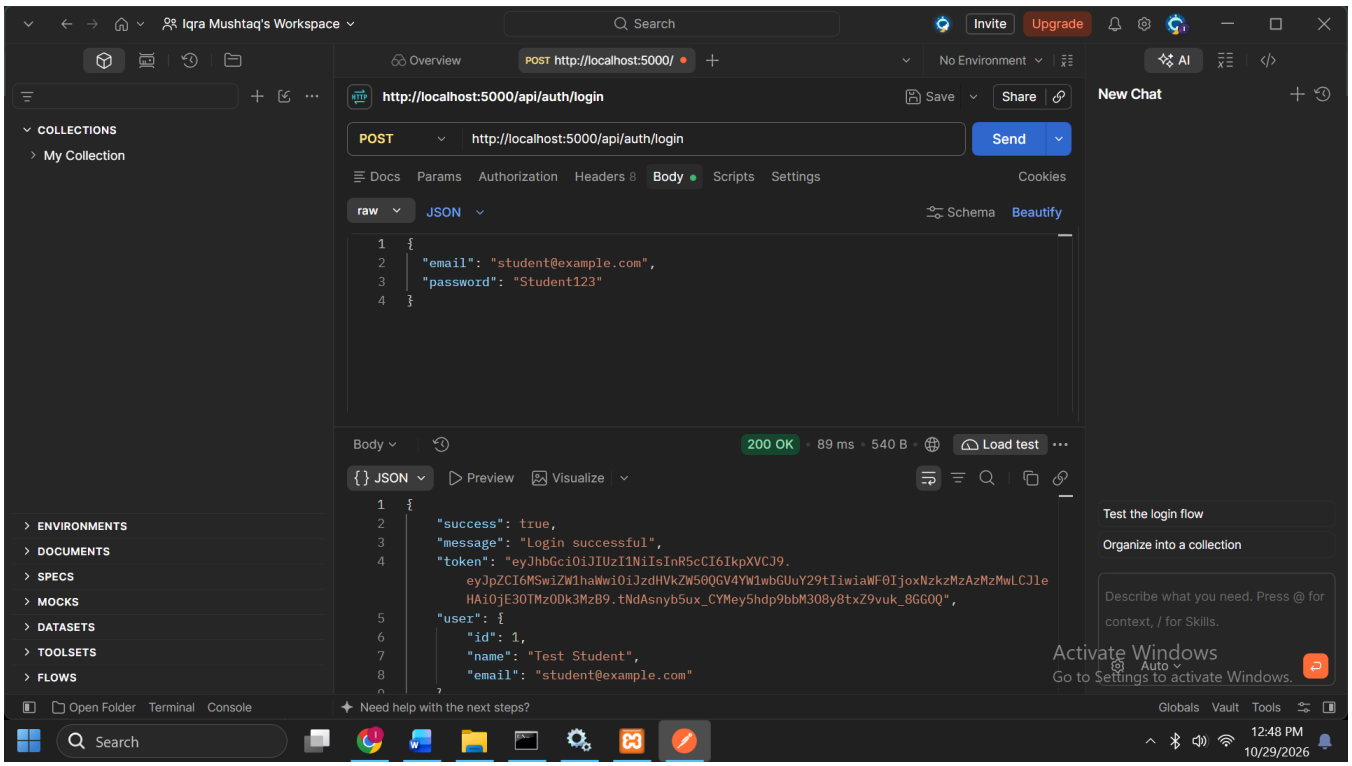

- Screenshot 1: Successful /register and /login responses.

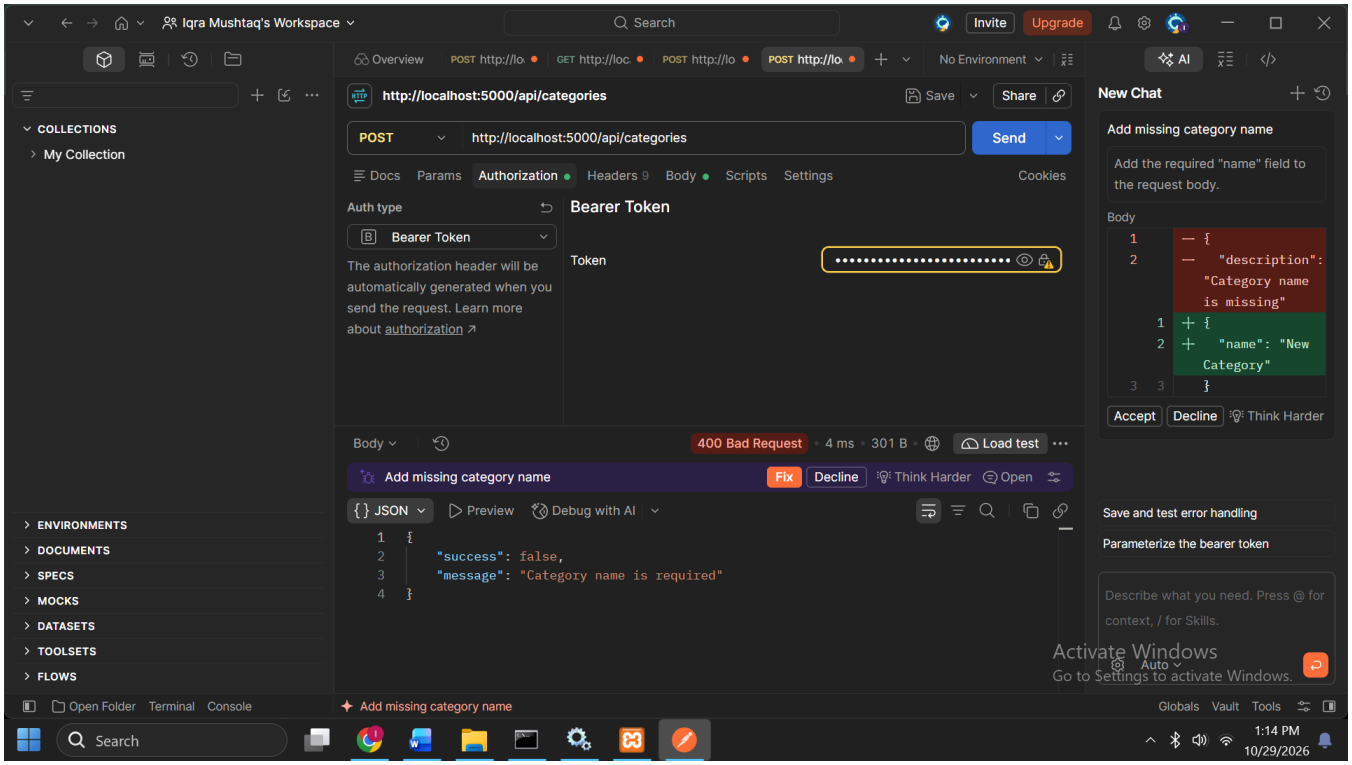

- Screenshot 2: POST /api/categories with a 201 Created status.

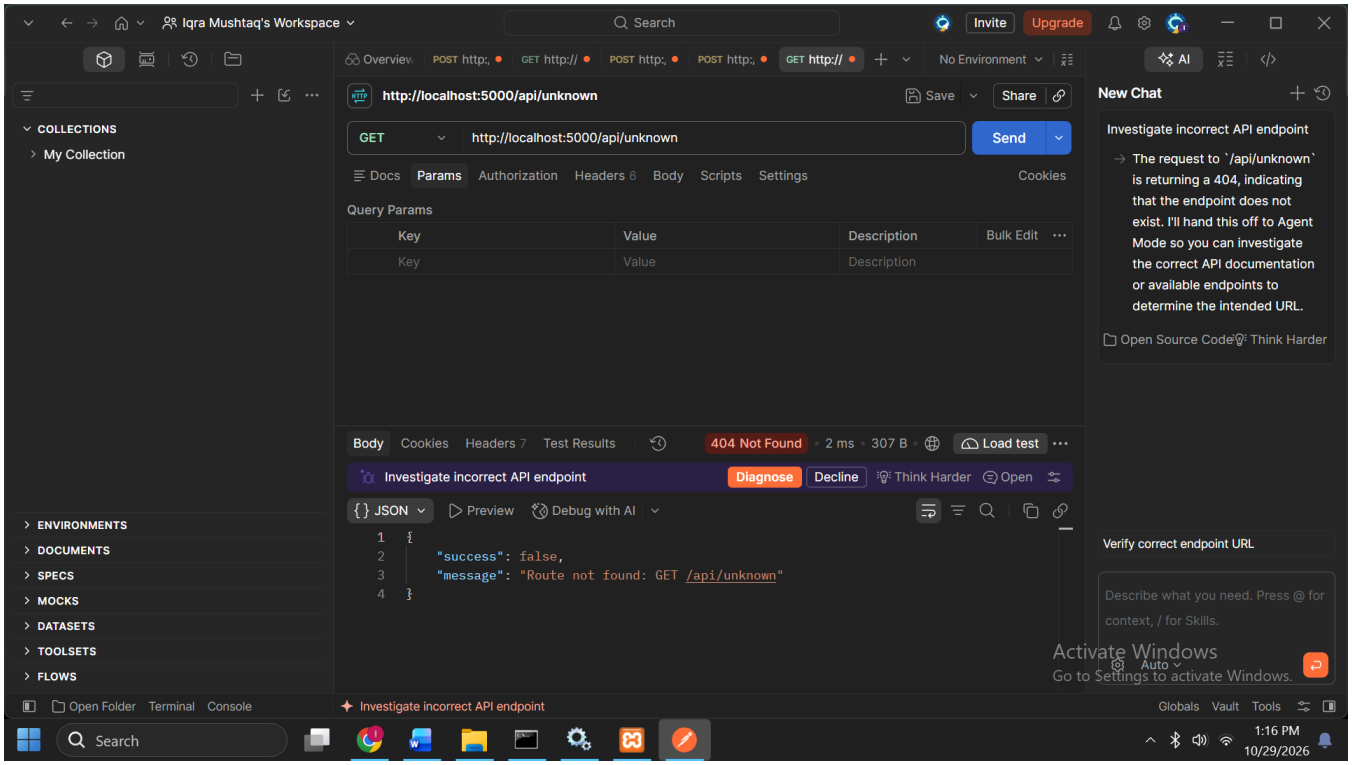

- Screenshot 3: GET /api/categories with a 200 OK status.

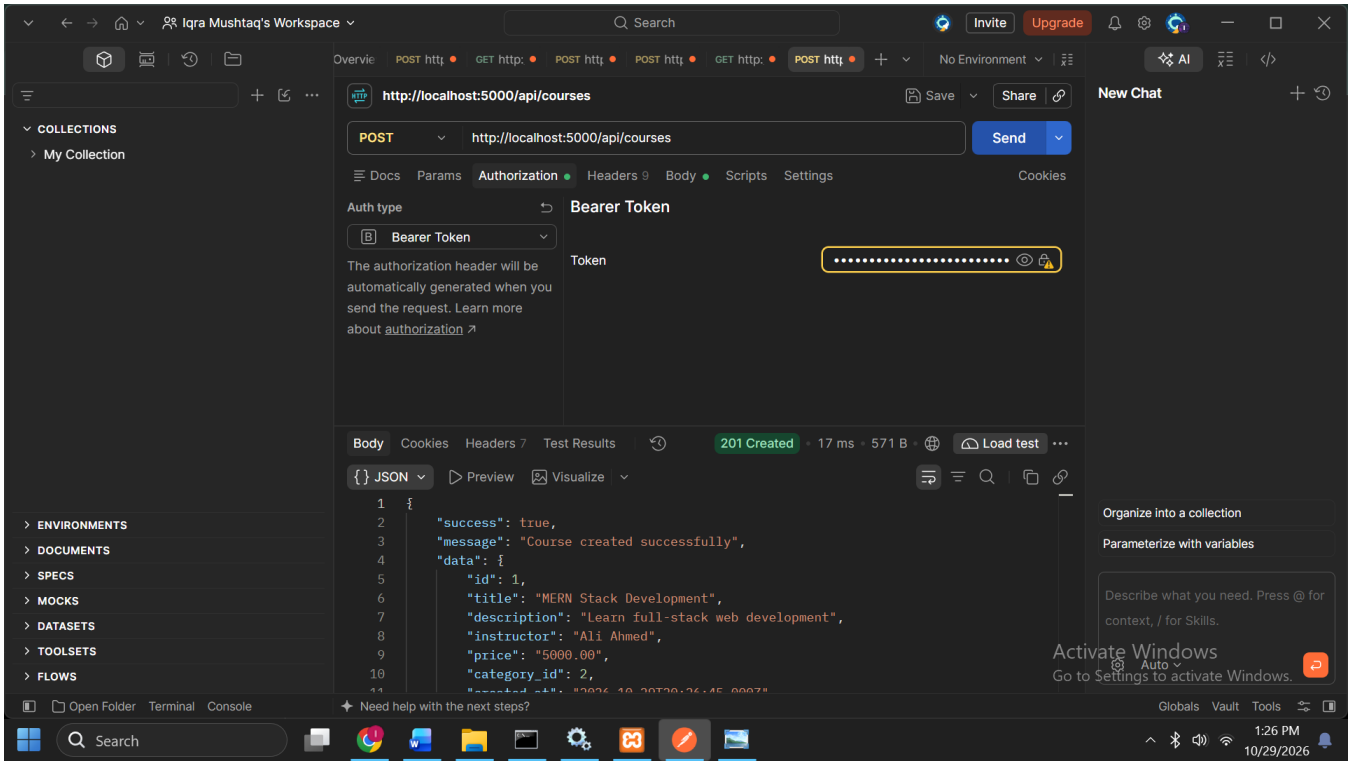

- Screenshot 4: A 400 Bad Request validation error when a required field is missing.

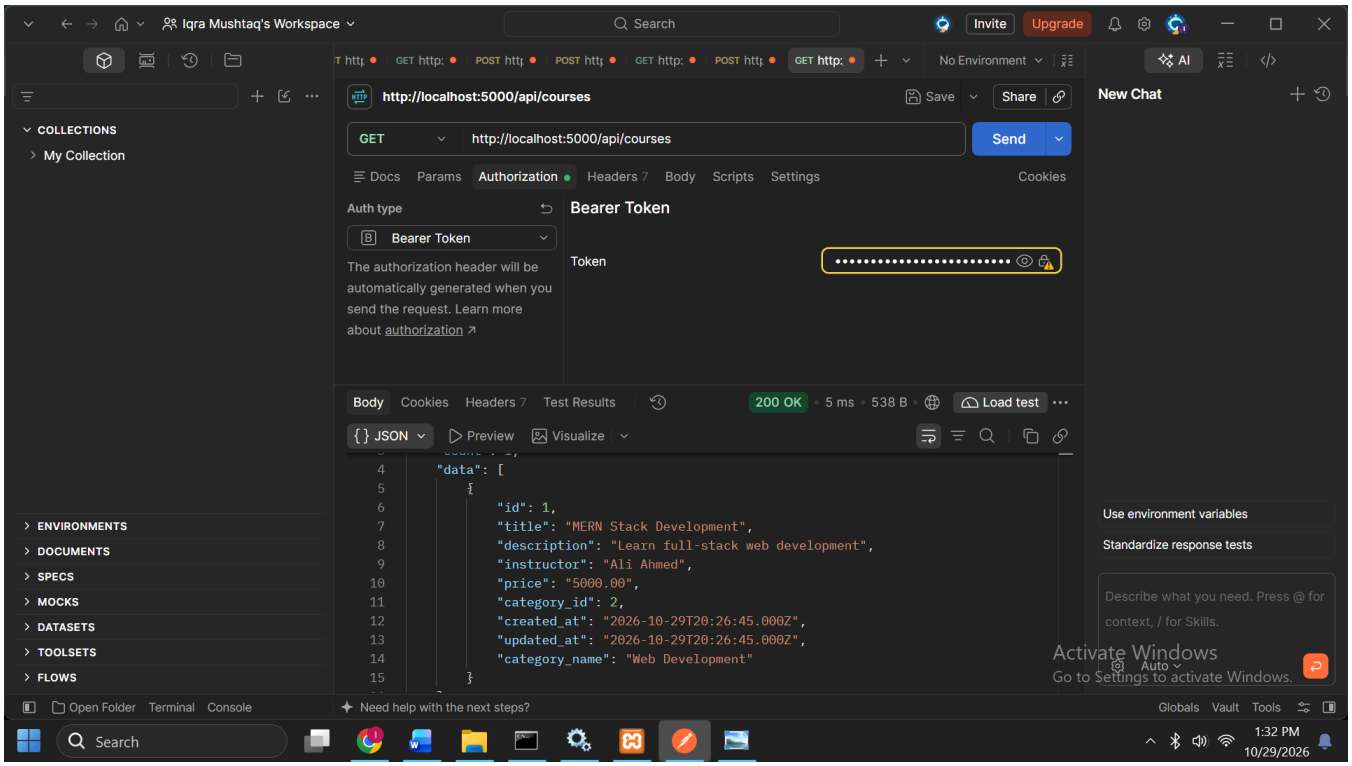

- Screenshot 5: A 404 Route Not Found error when an invalid ID or unknown URL is accessed.

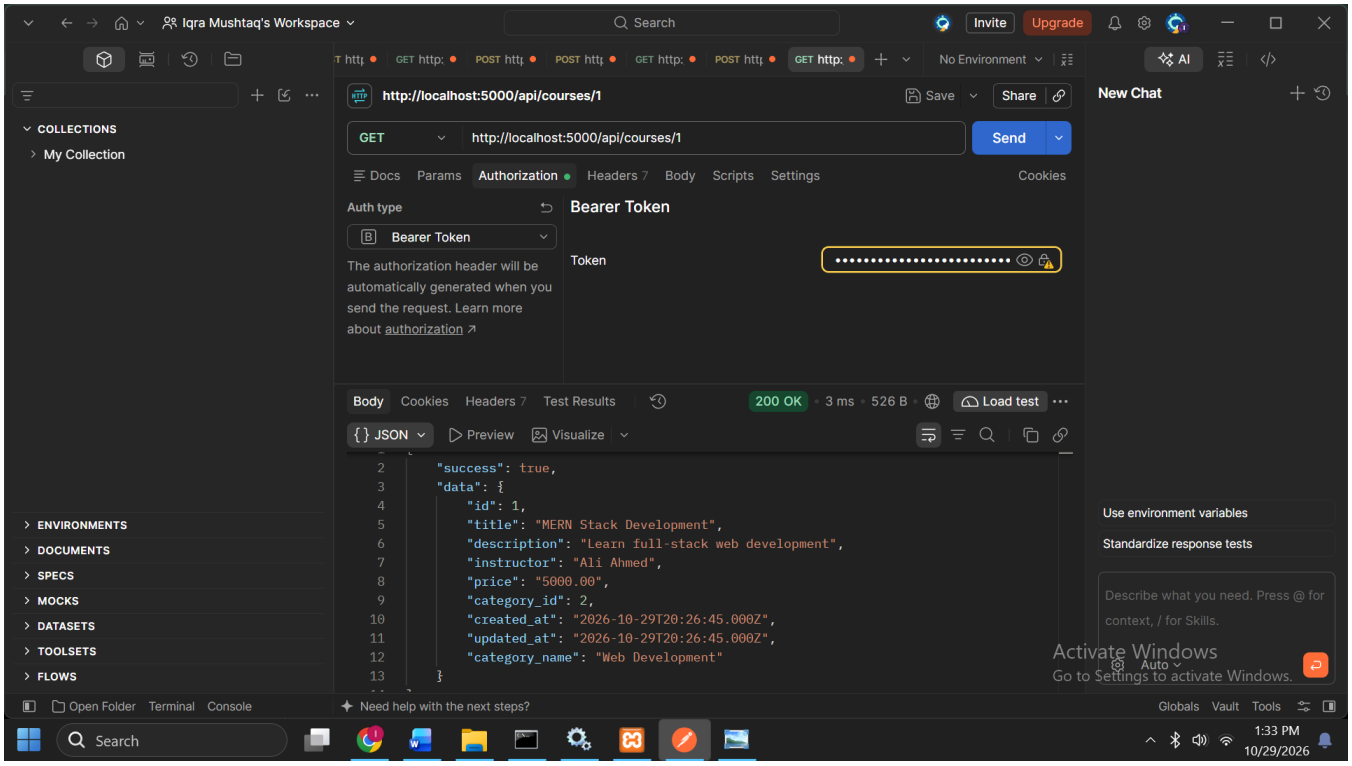

Screenshot 6: Create course api

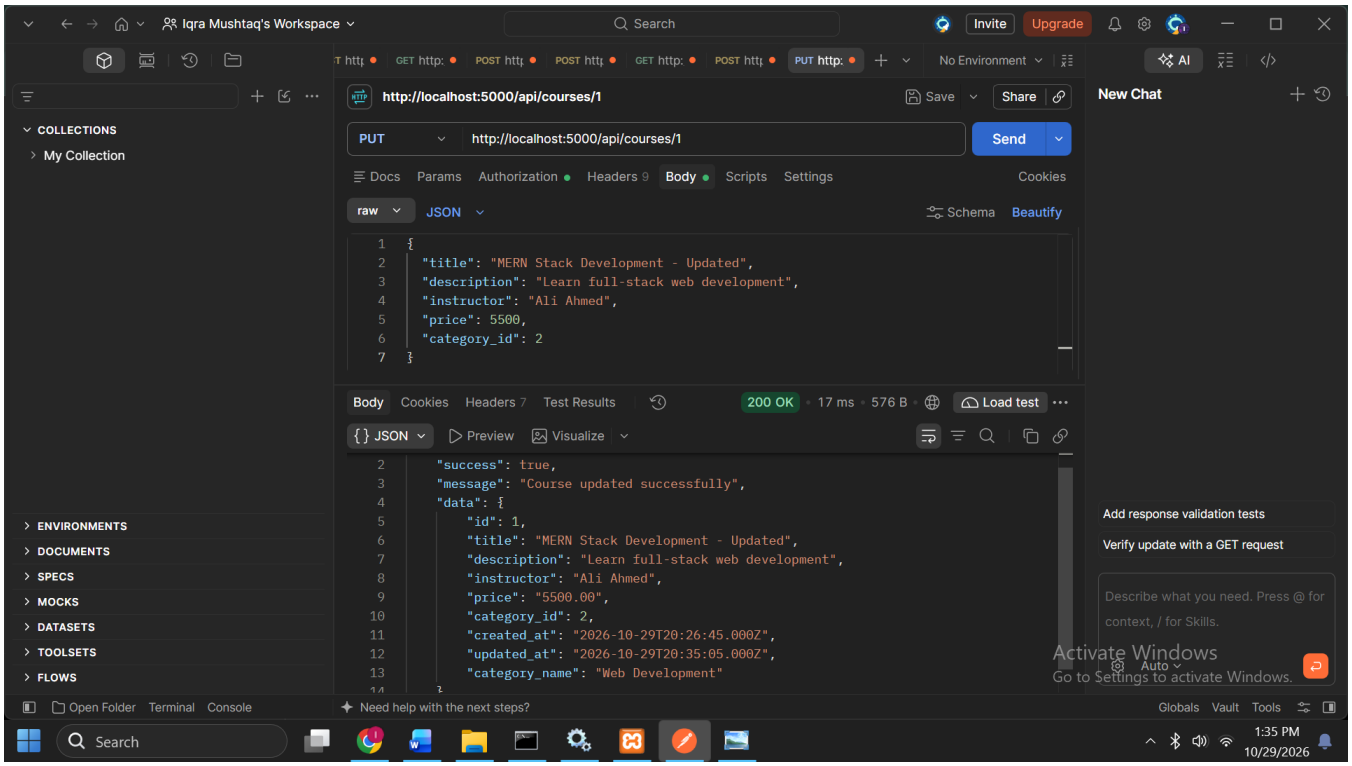

Screenshot 7: GET all courses

Screenshot 8: GET course by ID

Screenshot 9 : Update course

Screenshot 10 : Delete course — optional
